## ***SAFETY ORIENTATION FOR CONSUMERS***

---

The following information is important for all consumers regarding safety.

- Evacuation plans are located on maps hanging on walls.

### Safety Code

Red .....	Internal disaster (fire, bomb, .....gas leak, explosion, flood, power .....failure)
Blue.....	Medical emergency
Yellow.....	Hazardous materials spills
Green .....	Workplace threat and violence
Gray.....	Severe Weather

- Flashlights, spill and first aid kits are located in the place that is indicated on the evacuation maps.
  - Spill kits are blood and body fluid clean up kits
  - The MSDS is the Material Safety Data Sheet. It has sheets that list chemicals used at the site and what to do if the chemical splashes on the employee.
  - Drills are conducted quarterly and consumers will participate in drills.
  - The human resource laws and consumer rights posters are located in common areas at each site.
  - PPE is Personal protective equipment (gloves, aprons, masks)
  - Good handwashing is the best way to prevent to spread of germs
  - Exit signs are located at every exit.
- 

### IMPORTANT NUMBERS FOR CONSUMERS
